SUMMARY

Data Scientist and Data Analyst skilled in **machine learning, data visualization, and statistical analysis**. Experienced with **healthcare, real estate, and business analytics** datasets. Proficient in Python, SQL, Power BI, and Excel, with hands-on experience in predictive modeling and feature engineering. Strong analytical skills backed by a Master's in Data Science & Business Analytics.

SKILLS & TOOLS

Programming: Python (Pandas, Numpy, Scikit-learn)
Databases & Querying: SQL (Joins, CTEs, Window Functions)
Visualization: Power BI, Matplotlib, Seaborn
Machine Learning: Regression, Classification, NLP, Feature Engineering
Data Wrangling: Excel (VLOOKUP, Pivot Tables), Web Scraping
Tools & Platforms: Google Colab, Visual Studio, Git

EXPERIENCE

Data Science Intern | CODSOFT | Feb 2024 – Mar 2024

- Developed a **House Price Prediction Model** to estimate property values using regression techniques.
- Performed **data cleaning, feature engineering, and exploratory data analysis (EDA)** to improve prediction accuracy.
- Utilized **Python, Pandas, Scikit-Learn, and Google Colab** to build and optimize models.
- Evaluated model performance using **RMSE** to ensure accurate pricing predictions.

JOB SIMULATIONS & TRAINING

Data Analytics & Visualization Job Simulation | Accenture North America

- Performed **data cleaning, transformation, and visualization** using **Excel & Power BI.**
- Analyzed business datasets to provide actionable insights, improving data-driven decision-making.

Power BI Virtual Job Simulation | Pwc Switzerland

- Designed interactive **Power BI dashboards** to track KPIs and visualize complex datasets.

Power BI Workshop | be10x

- Learned advanced **Power BI techniques,** including data modeling, DAX functions, and dashboard design.

EDUCATION

M.Sc. in Data Science & Business Analytics
Vels Institute of Science, Technology & Advanced Studies, Chennai | 2024 | 81%

B.Sc. in Mathematics
Sri Krishna Arts & Science College, Coimbatore | 2022 | 84%

CERTIFICATION

Python, SQL & Excel Courses | Udemy

PROJECTS

- **A Machine Learning Framework for Early Stage Detection of Autism Spectrum Disorders**
- **Kidney Stone Removal Prediction using Machine Learning Algorithms**
- **House Price Prediction using Machine Learning Algorithms**

LANGUAGES

- **Tamil**
- **English**

ADDITIONAL INFORMATION

- Open to full-time roles or internships in **Data Science, Data Analytics, and Machine Learning.**
- Enthusiastic about applying data-driven approaches to solve real-world business challenges.
